

When it comes to scoring, accuracy is paramount, and accuracy depends on the expertise of the technologist scoring your patient's sleep studies. At US Sleep, our Vice President of Clinical Operations Ruben Garcia, RPSGT, has 10 years of experience in managing sleep labs and scoring patient studies. He trains all US Sleep Diagnostic RPSGTs who work under his direction and undertake every score with confidence, skill and accuracy.

Score Big with Tremendous Savings

US Sleep's web portal gives you a unique virtual platform to improve office efficiency and provides a cost effective solution for delivering patient results.

48 Hour Turnaround Time. Guaranteed.

After your patient's data has been uploaded to the HIPPA-compliant cloud server, an email notification will be sent to you within 48 hours from our registered RPSGTs. At this time you will be able to download, review and interpret the score and pre-interpreted report.

Fee: \$75

72-Hour Interpretation Turnaround Time

Additionally you can choose to have one of our pool of Board Certified Sleep Physicians read the results for you.

Fee: \$50
